no more important measure had been brought before the convention since its organization. That he represented over \$100,-000,000 in the perk packing of the west alone, and that he asked for the courtery of the convention for a very few remarks. He said that in a colloquial way he might entertain the convention profitably for four or five hours, but would contine his remarks within the allotted time. He would stat before going further that he had to-day the honor of a lengthy conference with Senator Miller, of California, chalman of the committee on foreign relations, at which Senator Cullom kindly attended. He found Senator Miller fully conversant with the question and anxious to lend his full co-operation in the matter of legislation. Senator Miller believed that no foundation existed for the prohibiting decrees of foreign countries, and was ready to lend his influence to any measures tending to their removal; that some of his colleagues in the committee were very anxious for proupt measures tending to the settlement of the question by way of the reprisals if such were lound to be wise. His committee had called for voluminous reports from the secretary of state, and the commissioner of acrieulture and on receipt of them prompt action would be taken. That he had seen a portion of the correspondence between the secretary of state and the American ministers in England, France, and Germany, and that they were urgent for action on the part of this government and extremely strong in their denunciation of the action taken by those countries prohibiting the importation of American heg products. Mr. Brine said that he had many recent interviews with the Hon-George B. Loring, who, he thought, was an able advocate of the American farmer. He appeared at the solicitation of Hon R. W. Unnham, and had many statistics and general facts bearing upon this subject, which he would be select to any other experience of able advocate of the American farmer. He appeared at the solicitation of Hon R. W. Dunham, and had many statistics and general facts hearing upon this subject, which he would be glad to submit to any gentlemen of the convention, but would not consume the time in reading them on the present occasion. He said not one authenticated case of discase from trichinosis had ever appeared resulting from the use of American hog products; that he had within the past two weeks had the honor of addressing a joint meeting of the committees of the senate and house and a delegation appointed by Commissioner Loring to investigate the condidition of hogs and entite, and was pleased to learn at that meeting, from the statements of exports, that after lengthy and thorough investigation that they had failed to find any foundation of any allegations made by the foreign countries who had issued edicts against the importation of the American preducts. He claimed that this was an attack upon an industry which maintained and employed an enormous merchant marrine. He said that he had listened with great interest to the many important measures brought before the convention involving the transportations of our products from the Mississippi to the Atlantic, but that, unless the government of the United States promptly protected the agricultural interests unless the government of the United States promptly protected the agricultural interests of the west, the last matter under discussion, the bankruptcy bill, exceeded all others in importance, as our farmers, merchants, and in fact our whole country would soon have to take advantage of some such measure if our hog products were excluded by the counour nog products were excluded by the contitries which had interdicted them.
These, lying at the foundations
of the great productions—corn
in Illinois, lows, Indiana, Ohio, Kansas,
and Nebraska—if the government falls to
protect the staple productions of our country,
possibly England and other consumers of our
cotton would soon find that some insect infected that stank readering it unit for the cotton would soon find that some insect infected that staple, rendering it until for the use of that people, on the ground that it contained poisonous elements, on the same unwarranted prohibition would attempt to protect Indian and Egyptian products; that if these unjust discriminations on the part of foreign countries were not noticed by this country, and the unwarranted libels on our agricultural interests were not met by prompt denial, we would lose the respect of the commercial world and suffer irreparable damage.

Mr. Brine read telegrams from many of the

fer irreparable damage.

Mr. Brine read telegrams from many of the western packers and a letter from one of the largest dealers in American park products in Havre. France, in which the statement was made that the prohibitory decree of France had been repealed, and had been again reforced by the statements of M. Paul Bert, who had misrepresented the statements of Dr. Betmers, who has been employed by this government in the examination of the hog products of this country, who had been in the packing houses of Armer & Co., of Chicago, since last Aligust, and who government in the examination of the hog products of this country, who had been in the packing houses of Armer & Co., of Chicago, since last Angust. and who officially denied the statements attributed to him. As each day might bring about some new absurdity the Howe firm thought it unnecessary to cable the results daily. As the government of France is willing to make itself the laughing stock of the world and they were certain that the only way to obtain justice was for the United States to adopt measures of reprissis against the products of country. of the world and they were certain that the only way to obtain justice was for the United states to adopt measures of reprissis against the products coming from that country. That if the members of congress could fully understand the question the matter might be very soon settled, as congress had the means of exercising print pressure by imposing duties on goods imported by French vessels, which would re-sult in serious injury to French interest, and that this measure was once before threatened. to be adopted when the French government introduced discriminating duties between goods imported by French vassels and those of other intomalities.

Some discussion gross over the resolution tresented, which, after a short debate, was

idopted as fullows:

services they have rendered.

The convention then moved that the executive council meet at Indianapolis May 25, 1884, which was adopted, and the convention adjourned.

church at large, under the direction of Rev. Dr. DeHass as agent of the general conference of the Methodist church, and was dediented in March, 1869. At that time there was a debt of about \$50,000, caused by a failure to pay subscriptions which had been made by parties all over the United States. The church as an ecclesiastical body was not organized nutil after the building was dedicated. The debt under the pattern of the Newman and Tiffern was pastorates of Drs. Newman and Tiffany was reduced from time to time until in February, 1882, it amounted to about \$10,000, including unpaid interest and a floating debt of about e4,000. The bishops then agreed to assume \$25,000 of the indebtedness if the church would pay the balance. The church, under the leadership of Rev. Robert Ball, pastor, raised their part immediately, and that indefatiga-ble worker, Chaplain McCabe, has secured by private subscriptions the amount assumed by the bishops. To-morrow the church will hold a jubilee service in a church free from debt. Hishop Simpson, who has stood so nobly by the church in all its trials, will preach in the morning, and Chaplain McCabe in the evening

We have no information of pleuro-pneumonia in the country districts of Maryland at any great distance from the cities. One or more hords near the District of Columbia have recently lost a number of cows, and at latest accounts had some sick. Within the district, accounts had some sick. Within the district, without making any regular inspection, three infected herds have been found where from three to six numbers are admitted to have been lost within the year. In Virghia there are stables from which animals have recently been lost with symptoms of this disease, but none of those could be secured for examination, and herefore we cannot be regular. tion, and therefore we cannot be positive in regard to the nature of the disea

The Sixteenth District Republicans. The Sixteenth District Republican association held a meeting last night at the California house, No. 58 C street northwest. The club went into a reorganization. Mr. William H. Lee was elected president, J. C. Rock vice president, Samuel M. Adams secretary, and Nelson Green treasurer. The club then elected the following delegates to the central committee: William H. Lee, Perry H. Carson, and James Leonard. Alternates, Richard Pollard and Alfred Marshall. After an ad-dress by Col. BASE BALL.

The Washington Club-Plans for the Season of 1884—Games to be Played with League and American Association Clubs at Athletic Park.

Early in the fall of last year Mr. I. Morley, to whose energy and liberality our citizens are indebted for what is now so popularly known as Athletic park, determined to give the public during the season of 1884 base ball insement that would be first-class in every respect. Having selected as manager Mr. John C. Hollingshend, one of the most popular and capable base ball men in the profession, and who has been prominently connected with the game in this city for a number of years, Mr. Hollingshead was anthorized to select and make contracts with players, and to take such steps as were required to place a representative nine in the field.

The greatest care has been exercised in selecting the very best players that could be secured, and in no instance has the question of salary been allowed to prevent a player's engagement. All of the players secured are steady, well behaved men, and in appearance and deportment will not be surpussed by any club in the country.

Manager Hollingshead has been booking dates for exhibition games during the month of April, and has arranged for games here respect. Having selected as manager Mr.

dates for exhibition games during the month of April, and has arranged for games here with the League clubs from Boston, Providence, Detroit, Buffulo, Cleveland, and New York, also with the crack Virginia club of Richmond. A series of games will be played with the latter club on its own grounds.

The championship season commences May 1 and extends to Oct. 15. The number of games to be played by each club will be 110—35 at home and 55 abroad. Two trips to each city will be necessary. On the first trip 3 games will be played and the second 2 games. Not less than 70 first closs games will be played at Athletic park during the season. There will be more base ball here in 1884 than our city ever knew before, and, with the team already selected, there is no reason why the Washingtons should not be liberally patronized.

Mr. Moxley has spared no expense in his

Mr. Moxley has spared no expense in his endeavor to furnish a representative team, and both he and Mr. Hollingshead deserve the support of the base ball public.

The players secured are E. J. Trumbull, J. C. Hamill, pitchers; J. H. Humphries, catcher: A. C. Joy, first base; T. P. Hawkes, second base; J. H. Gladmon, Ed. Yewell, third basemen; F. J. Fennelly, short stop; William Morgan, left field; Robert Cox, John Ward, center fielders; Jackson Beach, right field.

Negotiations are pending toward the engagement of another pitcher with promise of success. With the engagement of the last named, thirteen players will have been secured, making three "batteries," with an additional catcher. The admission to the grounds will be the same as last year, 25 cents for gentlemen, ladies free, and it is expected that the superior accommodations effered by the grand stand will induce a large number of the fair sex to witness the games.

As an extra inducement to secure the attendance of ladies and thus popularize the game with them, Mesars, Moxley and Hollingshead will introduce a new feature here, which has proved very "taking" wherever attempted. This is to have, at stated intervals, what is to be known as "ladies' day," on which 's ays ladies are to be allowed all the

So ral other new features will be intro-duced, all tending to the comfort of the patrons. Among others will be the letting for a small amount of comfortable cushions for the chairs and seats. It was tried in sevfor the chairs and seata. It was tried in several cities last season, and favorably received. As soon as the weather will permit the work of sodding and placing the grounds in the very best condition will be commenced, and at the commencement of the season the grounds will present a most beautiful appearance. We will shortly publish a sketch of the players.

The concert at the Tabernacle last night was a pleasant entertainment, interspersing amid the music some fine recitations. Prof. Townsend's recitations were highly applauded. A special feature of the concert was the rendering by Mrs. T. S. Chappelle was the rendering by Mrs. T. S. Chappelle of an "Ave Maria" from Gounod, with plauo accompaniment by Mme. E. Szemelenyi and violin obligato by Mr. E. Szemelenyi This number was enthusiastically received, Mrs. Chappelle's fine voice according finely with the violin and piano. Mrs. Millis's contralto solo was specially adapted to her remarkably deep, free voice, and was beautifully rendered. The last number was from the "Miserere" of "Trovatore: Miss Mionie Ewan and Mr. Miller soloists, and Dr. Bischoff and Prof. Jecko accompanyiats. It was, of course, splendidly done. Mrs. Powell gave her own pretty song, "Sweetheart." The next concert will be on Friday, Feb. 8.

A Serious Fire.

The alarm of fire turned in from box 126 at 6:40 o'clock last night was caused by a fire in the third story of house No. 423 Ninth street northwest, owned by George Willner and occupied by Joel Davidson.
